Thank you, Michal, for your fast and effective comments. Attached is the new draft. To give our reviewers maximum time, I will send this version tonight to OGC, Francesca/Jennifer and Cheryl Dunton (for OPA), copying you. I have retained and flagged the paragraph you marked for special attention (regarding past threats to the Scientific Integrity program).

Again, thank you for your fast review. We will hear back from our external reviewers (Friday afternoon). You and I will give it another close read then. I think we're in very good shape. I'll be on Annual Leave on Monday April 19 (our due date). That won't matter: we've got this!

Thank you very much for the draft. Please see what you think of these edits/comments, fix anything I have wrong, and run traps as we talked about.

Thanks!

Subject: For Michal's Notebook: Draft Dicamba Response

Michal – Attached for your review is our draft response to the OIG's Draft Report on Dicamba. (The OIG's Draft Report is attached for your convenience.) The OGC Front Office would like to review the draft when you are comfortable with it. I'll also send the draft to Francesca, FYI.

The document has two parts. The first 3 ½ pages are narrative commentary on the Draft Report. The last two pages are our proposed Corrective Actions (and our reaction to their Recommendations). For the proposed Corrective Actions, don't worry about making line edits; your general comments would be just fine.

I know you'll want to put this in your own words. I've also noted where I pulled language from the March 10 email, in case you want to delete/change it. Could we get your comments by **noon Thursday April 15?** I'll then share it with OGC.

Our response is due to the OIG on Monday April 19. Thank you so much.
